

## **Not sure what scanner to pick? - We want to help you! Zebra Technologies has the latest and the greatest tech in place Worlds best scanner**

Read barcodes far away, up close or on a number of different surfaces. The DS3600-series has an outstanding feature that lets you read a barcode on 20 meters distance as easy as on 1 meter. it depends on the barcode size off course but hey. It just works! - [Read more - click here](#)

**Flawless capture of every barcode with industry-leading scanning technology**

With Zebra's PR2M intelligent imaging, advanced sensors and proprietary, advanced algorithms, you can capture . . .

<p><b>Virtually any 1D/2D barcode</b></p> <p>Be ready for any kind of barcode... today and tomorrow</p>	<p><b>Barcodes in virtually any condition</b></p> <p>Dirty, scratched, poorly printed, and under plastic wrap</p>	<p><b>Faster and more efficiently than ever</b></p> <p>Give your workers unmatched scanning speed</p>	<p><b>With point-and-shoot simplicity</b></p> <p>Omni-directional scanning — no need to align barcode and scanner</p>	<p><b>Nearer and farther away</b></p> <p>Expanded working range and wide field of view to capture near and far</p>	<p><b>Optimized for Direct Part Marks</b></p> <p>Optional model captures even the most challenging marks</p>
---	---	---	---	--	--

Read only the barcode you want although there is several barcodes printed next to each other, or maybe its the other way around. Read all the barcodes at once with a single scan. Look closer at the MC70-series or the TC8300-series. - [Contact us - click here](#)

Read barcodes of a screen or connect the scanner to a tablet, instead of using a consumer-based tablet like an iPad or iPhone -get a rugged tablet like the ET55 or the ultra-rugged D10 - Read more - [click here](#) or [contact us by clicking here](#)
